## *Best Geodesic Dome Tent for Your Business*

[Geodesic dome tent](#) adopts a spherical reticulated shell structure. The reticulated shell is a curved space grid structure made of steel frames with powder spraying technology for Rust Protection, which offers a lighter weight and thin-shell structure. Therefore, the geodesic dome tent has an extremely high assurance factor, an attractive appearance with custom printing. People call it “the strongest space, the lightest weight, the most effective design”.

Normally, the geodesic dome tent ranges from 4 meters to 50 meters or more in diameter. Small dome tents from 4 meters to 8 meters are widely used as glamping tents, bubble huts, outdoor camp lodges, etc. More than 10 meters of geodesic dome tents are used as wedding tents, event tents, exhibitions, brand launches, cinema, concert parties, and other large-scale activities.

As a famous outdoor tent supplier in China, UVPLASTIC designs and manufactures geodesic dome tents with standard diameters, such as **5 meters, 6 meters, 7 meters, 8 meters in diameter**. Meantime, we provide custom geodesic dome tents for global clients. Today, people from more than 40 countries are using UVPLASTIC geodesic dome tents.

## Main Features

### Installed Quickly Almost Anywhere

Using the flange plate as the junction point of frames, therefore, it is really easy to install it. Normally, it will need two people and two hours for installing Geodesic Dome Tent for the first time.

### Strong Shelter, And Security

UV-GDT Geodesic Dome Tents constructed from strong, low-maintenance components and quality PVC cover, which can block UV and offers high tensile and anti-tear strength between -50 to +70 °C.

### Best Cost-Effectiveness

The price ranges from 1500 USD to 2500 USD. And the geodesic dome tent can last more than 10 years. It is really highly cost-effective for investors.

### All-Season Geodesic Dome Tent

Geodesic Dome Tent offers two or three windows, therefore, it is easy for fresh air to come in/out. With the help of an air conditioner, it is comfortable in summer. The Insulating Layer is available, with the heater, it is warm in winter.

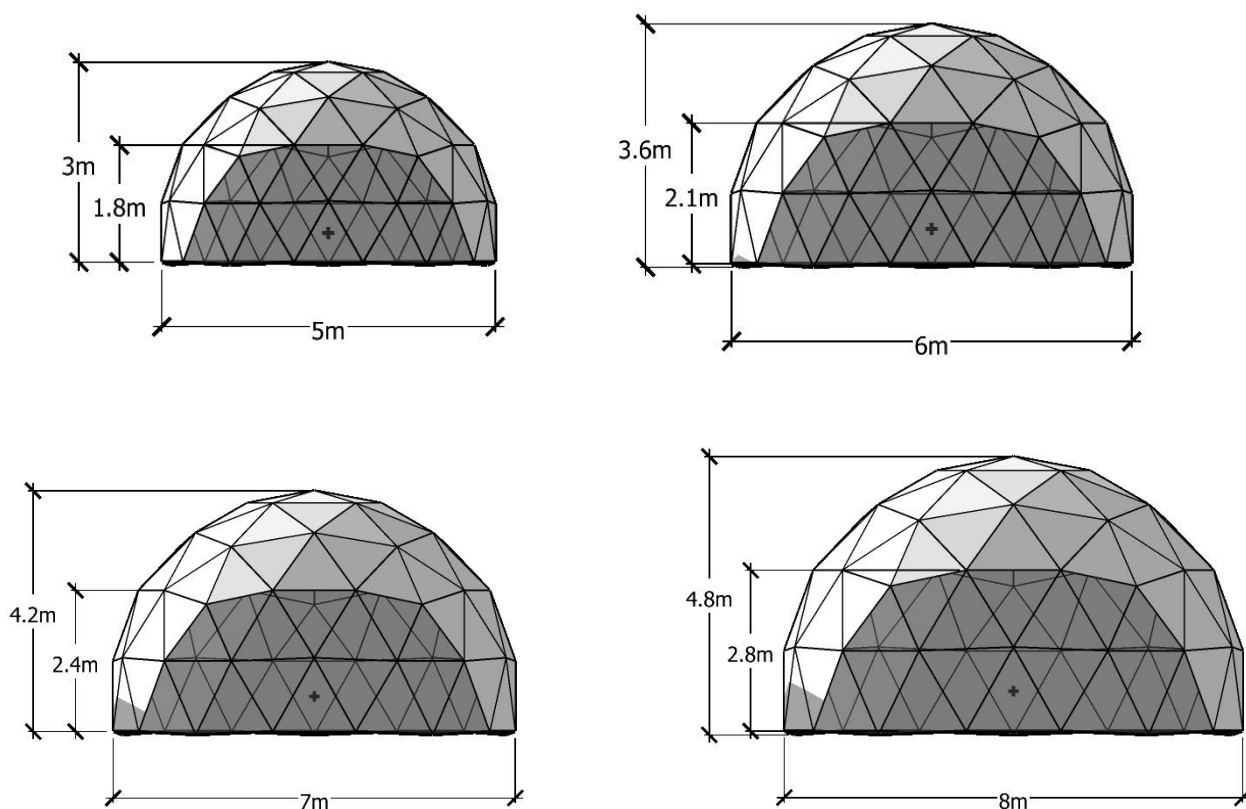

### Custom Geodesic Dome Tents

UVPLASTIC has experienced engineers to provide custom Geodesic Dome Tents to global clients, which can be used as event dome tents, greenhouse domes, wedding tents, and party tents.

## Standard Size of UV-GDT Geodesic Dome Tents

Model	Diameter (m)	Height (m)	Floor Area (SQM)	Main Material	Optional Part
UV-GDT-50	5	3	19.6	High-strength Steel Pipe With Powder Spraying Cover for Rust Protection, High-Quality PVC Cover	Insulating Layer; Aluminum door;
UV-GDT-60	6	3.6	28.3	High-strength Steel Pipe With Powder Spraying Cover for Rust Protection, High-Quality PVC Cover	Insulating Layer; Aluminum door;
UV-GDT-70	7	4.2	38.5	High-strength Steel Pipe With Powder Spraying Cover for Rust Protection, High-Quality PVC Cover	Insulating Layer; Aluminum door;

UV-GDT-80	8	4.8	50.2	High-strength Steel Pipe With Powder Spraying Cover for Rust Protection, High-Quality PVC Cover	Insulating Layer; Aluminum door;
-----------	---	-----	------	---	----------------------------------

**Note:**

1. UVPLASTIC won't provide any furniture inside;
2. Geodesic dome tents with custom size are available;
